- **Frontend: HTML, CSS, JavaScript, React, Next.js, Tailwind CSS, EJS**
- **Backend: Node.js, Express.js, MongoDB**
- **Full Stack Framework: Next.js (Frontend + API Routes + SSR)**
- **Tools: Git, GitHub, VS Code**
- **Currently Learning: Python, Data Structures & Algorithms**

LANGUAGES

- English (Fluent)

PROFILE

Passionate Full Stack Web Developer with strong hands-on experience in building responsive, scalable, and dynamic web applications using HTML, CSS, JavaScript, Node.js, Express.js, MongoDB, React, Next.js, Tailwind CSS, and EJS. Currently pursuing BCA (2025–2028). Skilled in both front-end and back-end development, API integration, and database management. Dedicated to continuous learning — currently exploring Python and Data Structures to strengthen problem-solving and backend logic. Seeking opportunities to apply my skills in real-world projects and freelance collaborations.

Dedicated to continuous learning — currently exploring Python and Data Structures to strengthen problem-solving and backend logic. Seeking opportunities to apply my skills in real-world projects and freelance collaborations.

🔗 URL Shortener with QR Code Generator (Node.js, Express,EJS

- Created a custom short link generator. Engineered an interactive QR Code generator using Node.js & MongoDB. Displays all short URLs and QR codes in an organized dashboard view. Tracks total click counts per link for analytics.

Weather App (HTML, CSS, JavaScript)

Integrated OpenWeather API for live weather updates. Displays temperature, humidity, and wind speed dynamically. Clean and responsive user interface.

⁉ Donation Web App (Next.js, MongoDB)

- Designed donation web app with seamless payment workflow. Includes user dashboard, payment history, and responsive UI for smooth experience across devices. Focused on building a clean UI and seamless payment workflow.
